

Malop Street Green Spine- Moorabool to Yarra St species list

The Green Spine plant selection includes a rich mix of native, indigenous and exotic plantings and a range of trees will be used to create an interesting and educational botanical link, that changes character along the journey. Deciduous trees, such as Maple trees, on the north side of the street creates canopy shade in the summer periods and following a spectacular autumn colour show allows the winter sunlight into the space and adds warmth to the pavement.

The south side includes a botanical mix of indigenous and native plants as the open aspects provides good sunlight throughout the year creating a better growing environment.
